Using Dice in Dice
And 10-Sided Dice in Dice

Yahtzee Directions

Supplies needed

Dice in Dice

10-sided Dice in Dice

Reproducible (cut in half) per student

Students play with a partner or small group. They take turns rolling the dice and crossing off the sum. The first to fill their sheet is the winner.

I have included a 2-12 number version and a 2-12 number word version for dice in dice.

I have included a 0-18 number version and a 0-18 number word version for 10-sided dice in dice.

*Instead of having students cross off, have them write the number or number word for extra handwriting practice.

* Idea found on Kidscount1234 for Kindergarten but I needed a challenging version for 1st grade.
